

green solutions for landscaping

Landscaping situations require consistently excellent quality turf that is free from weeds, pests and diseases and does not fall apart when laid.

Lindum has developed a range of turf grades suitable for the finest lawns and landscaping projects, producing quality turf using top-rated, named cultivars and grown on stone-free, sandy loam soils. Our different grades are suitable for a wide range of uses, so you can create a fine lawn that looks like a bowling green, lay a hardwearing turf that will stand up to wear and tear, or choose a turf to cope with the challenges of a changing climate.

Why choose Lindum?

Lindum Turf is used across the UK in parks and gardens, retail, office and building developments, as well as at visitor attractions and stately homes. Over 25 years of growing experience ensures that Lindum Turf exceeds the highest turf industry standard, is consistently of high quality, strong and stays looking good with easy care.

Lindum landscaping turf grades

All Lindum landscape turf grades are:

- Grown on stone-free sandy loam soils
- Strong and easy to lay
- Compatible with all soil types
- Free from visible disease and weeds
- Free from netting
- Available in small 1m² rolls or big 28m² rolls

You can choose the grade for your specific requirement or budget. Below are the grades particularly recommended:

Lindum Festival	LT7
Lindum Sports Turf	LT6
Lindum Smooth Stalk Turf	LT4

Quality Assurance

All Lindum turf is grown to the TGA (Turfgrass Growers Association) Standard and conforms to BS 3969.

The following grades of Lindum turf are particularly suitable for landscaping:

All the varieties used (please contact us for the current mixture) are named cultivars, highly rated by the STRI (Sports Turf Research Institute) for wear and disease tolerance, recovery and appearance.
