

Lindum Sedum Mat

10 beautiful varieties of sedum specifically designed for green roofs.

Lindum Sedum Mat is a pre-grown vegetation mat specifically designed for green roofs. It is sown with an exceptional blend of 10 stunning varieties of sedum plants to provide extended interest and colour throughout the flowering period.

Growing in a strong felt, Lindum Sedum Mats are supplied as a pre-grown instant vegetation layer.

The sedum is provided in slabs that are lightweight and easy to install. We provide rapid delivery of fresh product from our field to your roof. This means very little stress on your plants resulting in better establishment.

Why choose Lindum Sedum Mat?

Features: Sown with an attractive mix of 10 varieties of sedum with differing colours and leaf forms, low maintenance and extreme drought tolerance. The sedum varieties included are suitable for various different weather conditions in order to give the best result. Growing in a strong felt, Lindum Sedum Mats are supplied as a pre-grown vegetation layer.

Benefits and uses: Ideal for lightweight green roofs as sedums are drought tolerant and need only a shallow substrate layer. Also suited to situations that need low growing plants and for low maintenance green roofs.

Freshly harvested from our nursery in Yorkshire, they are rapidly transported to your roof meaning the plants arrive in good condition and establish better.

Mixture: The 10 varieties of sedum offer a variety of colour and interest, as well as enhancing biodiversity. They also extend interest and colour throughout the flowering season. Lindum Sedum Mat contains the best varieties of sedums suitable for various weather conditions in order to give the best results.

Colours can range from greens through to vibrant reds, oranges, purples and browns.

Maintenance: Light hand weeding every couple of months throughout the year to keep the windblown weeds at bay. Deadheading and removing the flowers at the end of the flowering period is a must to encourage new growth for the following year.
